MEETING OF THE STATE CONSERVATIVE COM-MITTEE. - At a meeting of the State Committee of the Conservative party (held last evening) called to consider subjects of much interest to the future of the party, involving its integrity and unity, the following resolutions, after due deliberation, were unanimously adopted :

First. It is respectfully urged that conventions should be called in each of the congressional districts where there is a clear Conservative majority; and in the other districts such course should be pursued as the members of the State Committee in such districts may deem most conducive to the in-

He was sent to the penitentiary for supposed complicity in hanging a negro who had become a terror to the neighborhood. He arrived in Richmond yesterday morning, and started for his home in Mississippi last evening.

THE HEATED TERM .- The weather yesterlay morning was even warmer than on the day previous. Everywhere in the city the heated term was discussed and compared with last summer, and the heat of the previous seasons. At S o'clock the mercury stood at 89 in our counting-room, at 3 P. M. 93, and at 6 P. M. 89. At our ront door it was 981 at 3 P. M., while at 4 P. During the heated term last year the mercury never rose higher than 87 degrees at the capitol, but yesterday and the day before it was 92. Elsewhere in the city there was about the same report. Reports from the county represent the weather as having been intensely warm. On Tuesday Mr. J. M. Fourqurean, who lives a short distance from the city, lost a valuable cow from the effects of the heat; Mr. A. Y. Lee, of this city, lost a horse; another fell dead yesterday on Second street; Messrs, Stokes & Co. were deprived of the use of one of their teams about 5 o'clock yesterday -- a fine dray mule-which fell from the effects of the heat on Thirteenth street near the corner of Franklin; and there were similar sun-strokes at other places in the city.

About 3 o'clock it clouded up, and with a pleasant breeze the afternoon was rendered

much more agreeable. About 9 o'clock last night it commenced raining slightly. Later the city was visited by a thunder-storm, which lasted an hour. At a late hour last night it was still very loudy and threatening. The atmosphere was considerably cooled, the mercury standing at 782.
